Thanks I want to translate my blogs and news articles into Spanish. I also need expert writer who can write professional articles according to my subjects. Please provide me samples if you are interested in doing this job. Thanks, it's more of a working from home situation ----- jmpman Who is this for? If I'm not a web developer who has had to learn html/css because I work for a company where they just don't want to support us, then I can't use this. ----- zyxley I can't say I'd use this for exactly the

reasons one of the other comments mentioned. The lack of localization in some cases makes it quite hard to get a useful UI out of some of the options, and I can see how the lack of a standard file format could be a bit of a pain for other applications. But even if I worked for a company that used it, the primary barrier to me from a business perspective would be licensing. I'm sure the site could be split up into separate "Creator", "Freelancer", and "Team" versions, but licensing and distributing those components might be rather tricky. 1d6a3396d6
