Portable NK2Edit Activation Code With Keygen

Portable NK2Edit is a lightweight application that helps you open and edit NK2 files, which are used by Microsoft Outlook to store information about users and email addresses. This utility was specifically built to allow you to modify or remove the values that appear in the "Auto-Complete" list used by MS-Outlook for displaying contacts. Since this is a portable program, it is important to mention that it doesn't leave any traces in the Windows Registry. You can copy it on any USB flash drive or other devices, and take it with you whenever you need to edit NK2 files with ease. The user interface is clean and gives users the possibility to add items to the list by dragging and dropping them into the main window or using the built-in browse function. It also lets you backup the original NK2 files and restore them. A new record can be added to the list by giving details about email, name, SMTP address, exchange string, and display type (e.g. forums, remote users). What's more, you can import contacts from Outlook's address book, extract data from corrupted NK2 files, as well as perform search and replace operations. When it comes to exporting options, you can save all data contained within NK2 files into a Unicode text file, as well as export the email information to HTML, CSV, XML, or plain text file, or send it directly into Outlook's contact list. The utility offers command-line support for helping users write simple scripts, such as add, remove, or modify the information stored inside NK2 files. All things considered, Portable NK2Edit gives you a hand whenever you need to edit NK2 files quickly and with minimum effort. Portable NK2Edit License: Portable NK2Edit is FreeWare, freeware, shareware, demo software. The free trial period is 60 days, during which you can fully use the program and make a test of any license. To install or use Portable NK2Edit you may have to register it. Portable NK2Edit Support: Please provide feedback here if you have any questions or problems. Warespirited.com is a website owned by Warespirited.com and operated under the Warespirited.com domain.
