A gaming company named Doga Kobo Co. Ltd. that is collaborating with the book company Kadokawa Games and headed by CEO Hironobu Takeshita and President Kikuko Hoshino is developing a fantasy action RPG game set in the Lands Between. This is a world that exists between the planes of existence, formed by the proliferation of Demons, in the wake of the great disaster that occurred at the end of the world. In this world, people that have been reborn after dying are living, and the people are slowly recovering from the crisis. This game is a new title with a new genre, and features characters who are a synthesis of people that have been reborn and people that have been reborn as Demons. The setting of the game is called "The Land Between the Planes", and it has a large world where you can freely go from town to town. This game is filled with action and adventure, and the characters will be able to explore this world with a sense of mystery. The design philosophy is to create an action RPG that has a sense of mystery and fantastic adventure. CG Hero: With this game, what kind of scenarios do you envision for the future? I believe that this title will be a hit title, and will be loved by the players as it holds a wide range of content that players can enjoy by themselves or with friends. CG Hero: You mentioned that this game is the first title of Doga Kobo Co. Ltd. what was the reason for choosing them to work on this game? I felt that Doga Kobo was a company that had a high sense of responsibility to the players. As we all know, Doga Kobo is currently a bookstore, and there are a variety of titles for the players to enjoy. I felt that the company and I had a common value. CG Hero: With a title such as this, you can release games for a long period of time, but isn't the main point
