ammo for main weapon, reinforced chassis to
strengthen anti-tank capacity, additional radar,
ground-to-air missile system, complete armored
mobility system, thicker skin to increase the
survivability of vehicle, new main weapon, plenty
of additional weapons and other changes. Detailed
Features of Tiger Tank DLC: 5 brand new maps
with better map design and mini-boss Unique
gameplay with advanced main weapon Easy to
play with improved interface Detail design of
customization Stealthy map transition of main
weapon Tailor-made image design of camouflage
Full synchronization of camouflage and
camouflage coat of soldiers Expansion of in-game
music Increasing the number of crew members
New and improved effects of damage and decals
Exact-based upgrade level of crew members 8
additional weapons Change of ammunition type
Added multiple modes of gameplay Easy

installation and uninstall Full integration of voice lines Brand new graphics and updated sprites Brand new sounds for all weapons Brand new quality of life features The Tiger Tank DLC contains five new maps, each with two mini-bosses that fight for the survival of the game. The game is completely a Tank Battle Classic style and it's a completely different type of gameplay and map design. It's the high-performance combat battlefield in the classic style. With the new firepower of the main weapon, you can destroy enemy forces more easily than ever before. The main weapon is more powerful than the normal MP30 and also increases the damage of the left and right half of the turret. It has a high horizontal and vertical shooting angle and offers superb maneuverability. The player has to position the main weapon at an appropriate spot to provide maximum

What's new in Simple Spy:

Free Download Get to Moraine Lake as fast as possible. This is the first DLC Pack for IFU, the 5th DLC Pack for Fishing Captain. Top-notch fishing can be only obtained here. You might have to trigger things a bit to get to where you really need but the results will definitely be worth the effort. Version 0.5.0 - New 3D graphics with SLIGHT improvements to water surface, lassos and gill nets. 3D revamped controls. Includes improved camera movement controls. - Some mesh work for the home screen. - Menu optimized. The sub menu's are now the same width as the rest of the in game menu and are now also the same height. - Updated Items and Search menu. - Added option to change locations where IFU will start. - added option to upgrade all config items no matter your build status. - improved Wind direction that is shown on the map or a fish drawn on the screen. What the developers have to say: Giveaway of IFU 0.6: Minerals Dresser In early 0.5 we had a chance to complete the Minerals Dresser and we realised there was a lot more to do with it. So once we did that we can now giveaway 0.6 of IFU as a free download. If you want to get yours, the download can be found under Winter 2015 Store. Hot Alcatraz Pirate Pack This hot pack is based on the Mod base and includes everything: Freight container, Cabin, anchor, salvage kit, pipe-pencil, shots for the Mako barge, coffee and tea. Gerlics of Alvudrus The Gerlic's abound, they're the most aggressive and hostile creatures in the westsiders' waters. Famously adopting a cultural aversion to steel, and fiercely protective of their sea it ain't. In Alvudrus you'll be on a shoestring. But that makes you the ONLY one on a SHOESTRING. Chef Pack In addition to the gear I also made chef-shops around the island. In the first pack I wanted to make sure you have the most eclectic selection of fishing equipment and fish around. You will need to do some crafting to buy the right items to create a full recipe. In addition to the chefs you will need some signature dishes made from them. If you want
