### Features Key:

Sudden Death! It is not only an action RPG game. At random times, you may come face-to-face with fierce foes. You can come face-to-face with a titanic level boss. You can collect the power for many of the game's amazing transformations. Each of the massive bosses in various places (5 of which have been modified) consumes all of your energy and removes some of your best equipment to conquer them. Such powerful foes can easily defeat you within the blink of an eye. Those who find themselves brought down by sudden death can only hope and pray that a fuse will be added!

Gain and Loss of Life As a result of your fighting or interaction with the environment, energy, items, experience points (EXP), and gold will accrue. When you die, there is a chance that you will drop a certain amount of gold or items on the ground. The extent depends on your class. Many items and gold cannot be picked up due to the impossibility of restoring resources. If you know the locations of these items, "keep the energy" and "save the gold" and so on will be of great help.

Exhilarating PvP Feats! Double-speed sword abilities, more powerful attacks, and attacks that deal more damage against enemies at certain distances can be performed during PvP matches! Those who would like to try these in-game for a little while can visit the "PvP Test Room" in the Settings menu. Vanishing! Various objects, including the environment itself, disappear after a certain period of time. Even the characters can be removed if necessary for the battle. To prevent this, make an attempt to use various items to prevent them from disappearing.

Skill "Elden Training" and "Rehearsal" You will have "Elden Training" in battle, and the first time you use skills acquired through Elden Training your character will change. You can also practice using skills while resting in a large number of convenient places on the field. If you play the game with your friends using video chat, you can easily share your skills in real time!

Warriors will pile up their ranks and get rare trinkets! Rarely-obtained weapons, armor, skill enhancements (here
