First of all, you will receive an email from the support team, which you will need to click on to activate the software. You will then need to create an account with the help of your email and password as and when prompted. Once done, you will receive a few samples of the typing lessons and a tutorial on how to get started. You will be guided from the beginning with the in-built Hindi keyboard to the end, helping you in learning the quickest way possible. Also, ensure that you use your email id while creating an account. So, make sure to use your active email id while registering with the software. You will receive a welcome email to your email id from the support team once your account is verified. What you can expect from the software is it comes with all the necessary features that allow you to experience what it is like to type in Hindi. You will enjoy this while typing out your documents as well as emails. Also, one can navigate through the software with ease and use the help icons in several parts of the software. On the far right of the screen you will see the 'Hindi' drop-down menu. You can tap on it to view the available letters. In case, your keyboard is not displaying all the letters in Hindi, you can change it. However, make sure to change it back once you are done with your text. For more information on using the software, one can visit the website or give the support team a call at this number mentioned on the website itself. You can even call the number mentioned on the software itself. In case you have any issues with the software itself, you can come to the website or call the support team and get the solution.
